Langmatz supports SOS Children's Villages

Garmisch-Partenkirchen children's centre receives a donation of €5000

Garmisch-Partenkirchen, 22 September 2017 – The range of activities offered by the children's centre located on Parkstrasse near the Garmisch-Partenkirchen's Kurpark (Health spa gardens) is astounding. Among other things, it offers interdisciplinary early childhood intervention, an integrative nursery, a "Cry baby walk-in clinic", the "Harlekin post-natal care" project, and a specialist service that provides counselling in crisis situations. A "parent initiative" for families with a disabled child and the "Café Regebogen" meeting point complete the services offered at the facility. Donations from supporters are always welcome here, like the €5000 donation provided today by local Langmatz GmbH. "It is clear that these important contact points rely on donations to be able to work in the long term. Sustainability is a high priority for our company. Against the background of this idea, we decided to support the SOS Children's Village in Garmisch with a financial donation", explained the Managing Director of Langmatz GmbH when handing over the cheque at Parkstrasse.
